THANK YOU TO OUR MAJOR SUPPORTERS OF THE 2021 GASCOYNE GAMES

WHALE WATCHING

The Ningaloo Coast has the highest density of humpback whales in the Southern Hemisphere during their annual 11,000km migration from Antarctica (June to November). During this period, an estimated 30,000 humpback whales visit the Ningaloo Coast on their way to their breeding and birthing grounds off the Kimberley.

In a first for Western Australia, tours to swim with humpback whales are now available out of both Exmouth and Coral Bay. Snorkelling with Ningaloo humpbacks provides a whole new perspective on the size and majesty of these great whales.

EXPERIENCE THE NINGALOO AQUARIUM & DISCOVERY CENTRE

The stories of Ningaloo come to life at the Ningaloo Aquarium and Discovery Centre. The centre is a welcomed first stop in Exmouth, where visitors can gain an intriguing destination experience of life in one of Australia's youngest towns.

The Ningaloo Aquarium and Discovery Centre will delight children and adults alike with interactive touchscreen activities and an abundance of information to explore. Children can create their own digital fish and set it free to swim with Ningaloo creatures on a digital video wall; explore a cave system under the Cape Range and feast their eyes on scaly inhabitants in the Terrestrial Gallery.

A visit to the gallery shop is well worth a browse including a great range of holiday clothing, games, books and plush whalesharks or simply enjoy a delightful meal at the centre's café.

With so much to see, a visit to the Ningaloo Aquarium and Discovery Centre is a great start to your extraordinary Ningaloo Adventure.
